

TIME FOR YOUR PERSONAL SERVER

HIGH SPEED

Servers are powered by multi-core Intel Xeon Gold 6132 processors. We pack 384 GB RAM into each node along with dedicated 4 Gbps network connection.

ASSISTANCE ON DEMAND

Web hosting can be tough, especially at the beginning. We offer assistance in data migration from various control panels, such as cPanel WH M and DirectAdmin. Of course, free of charge!

CLOUD-BASED INFRASTRUCTURE

Solid 100 Gbps network capacity and enterprise class, branded HP ProLiant hardware.

AFFORDABLE PRICES

Since running a DC involves such costs as electricity charge, facilities charge, and employee wages, operating our DC in Lithuania allows us to stand out from our competitors.

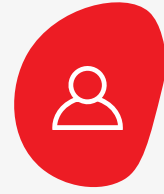

RELIABLE OPTICAL CONNECTIONS

Enjoy the unique opportunity to reach almost all Europe in less than 50 ms! Be sure that your mission-critical applications will keep on running, even in the event of an unexpected traffic demand.

SECURE AND HASSLE-FREE

Keep calm, we handle all network and hardware maintenance, security, and data backups.

RESELLERS WELCOME

Sell our services at your own pricing structure.
No upfront capital is needed.

COMPLETE HOSTING SOLUTION

Various OS distributions, IP add-ons, and instant cPanel/WHM, DirectAdmin, Plesk licenses.

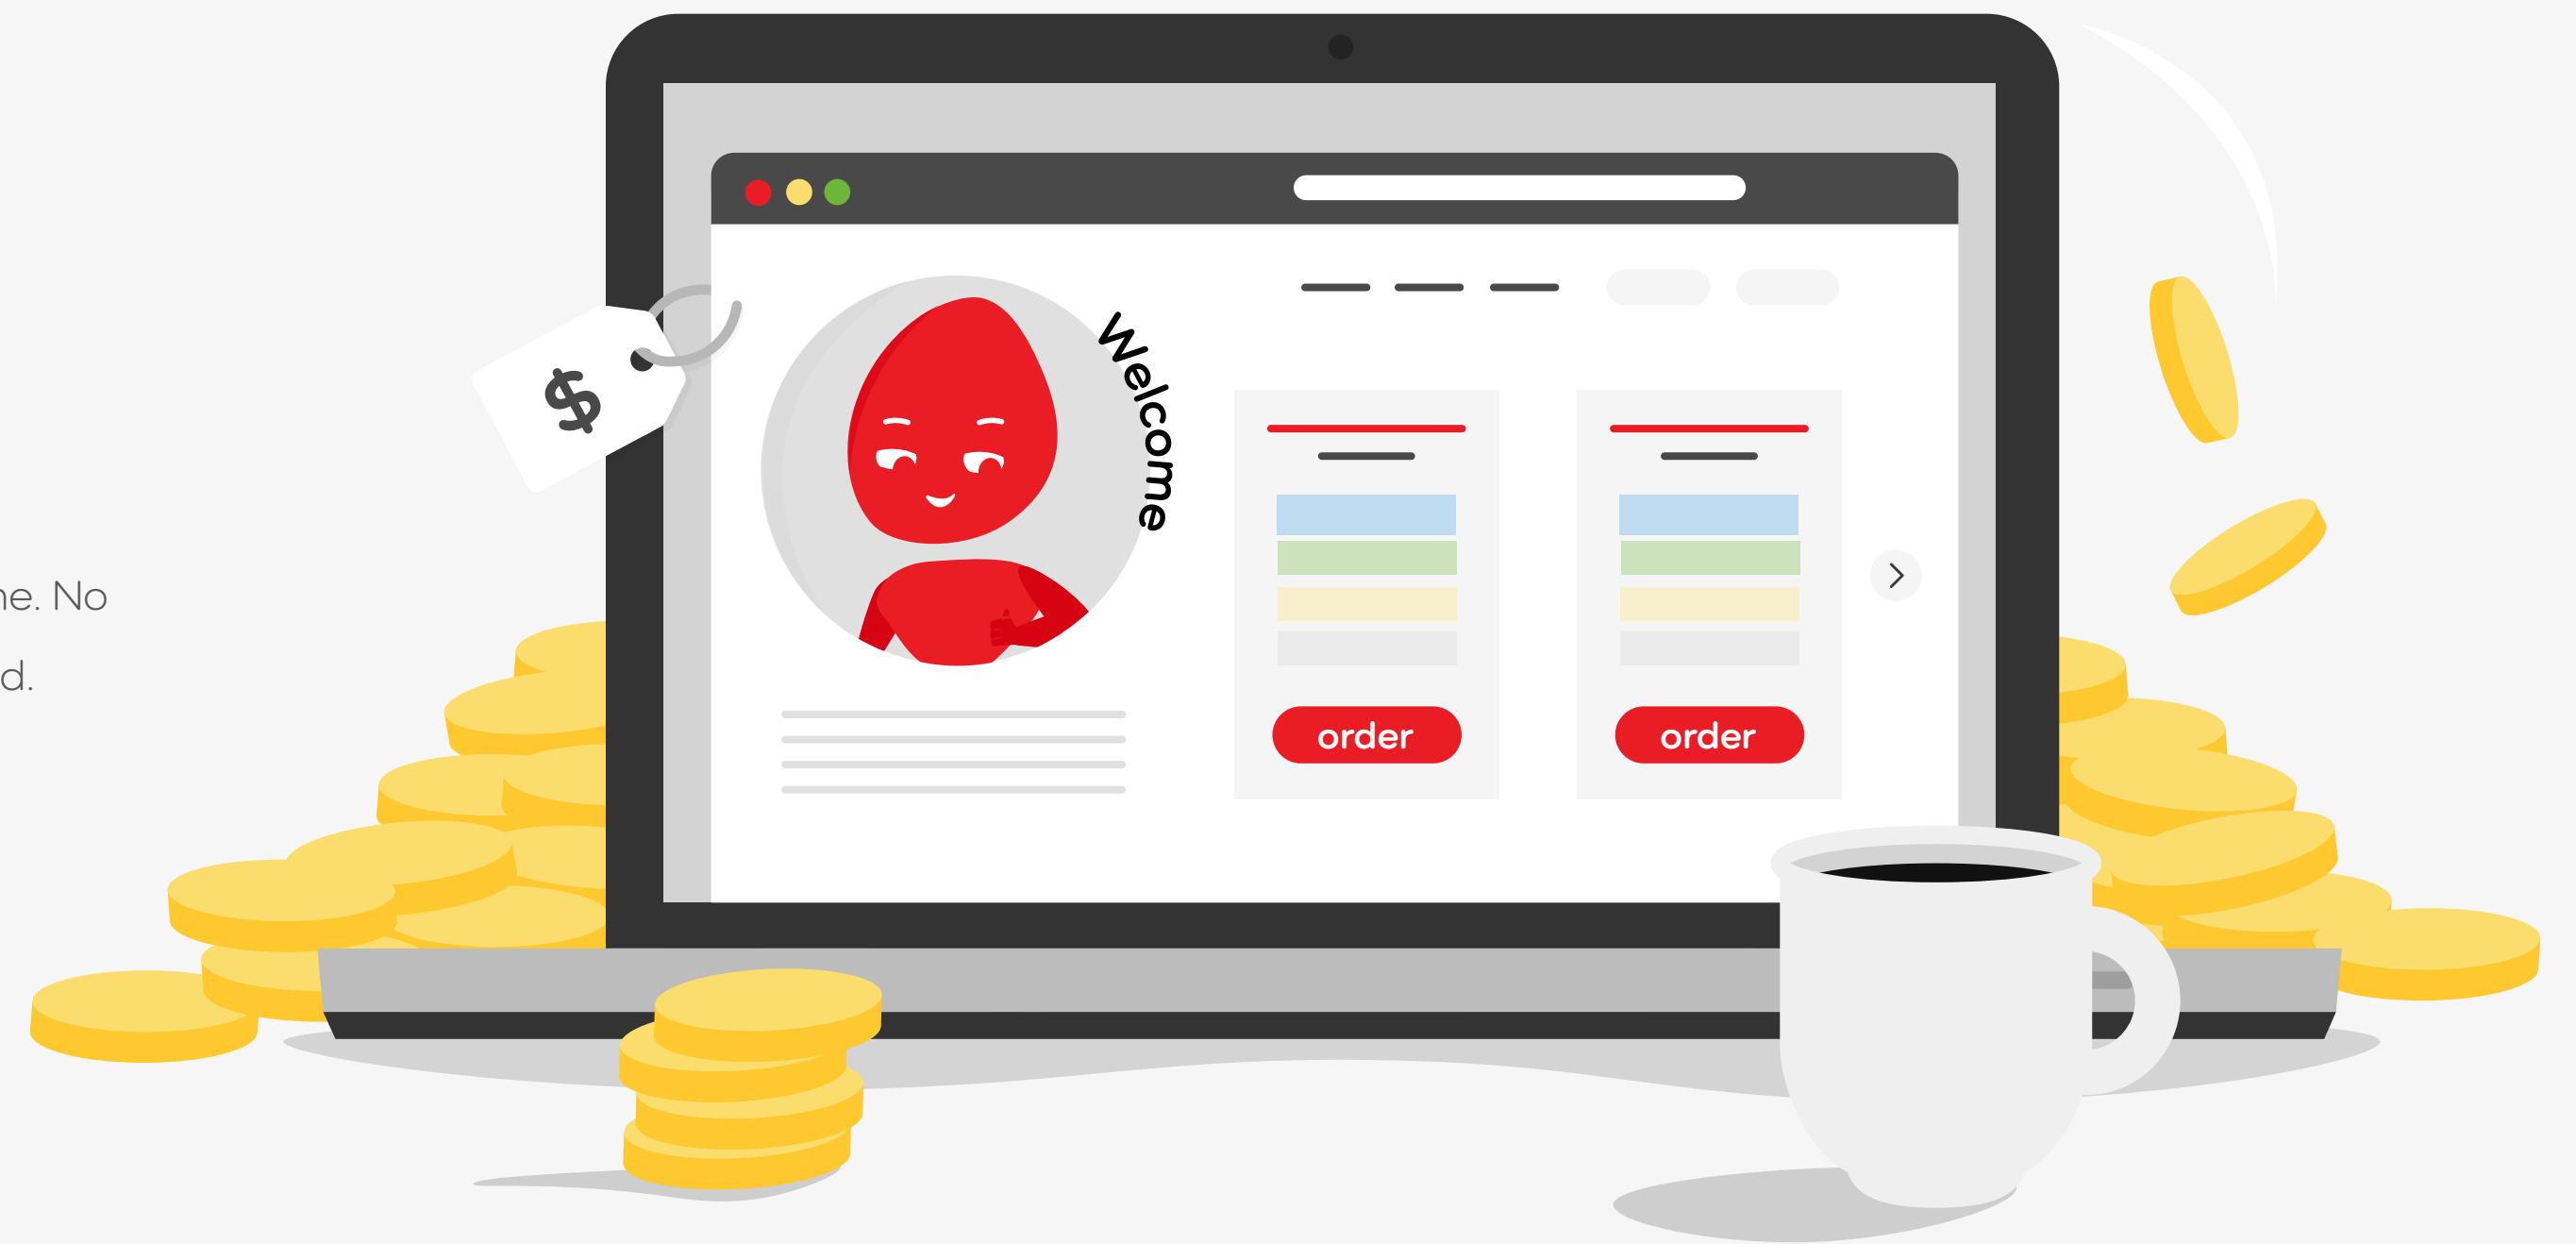

NO LONG-TERM CONTRACTS

Enjoy flexible monthly contracts and a 30-day money-back guarantee.

RESOURCES ON DEMAND

Upgrade your VPS on demand. Anytime. No restart or OS re-installation required.

SPECIFICATIONS

SERVERS

With Time4VPS hosting services you get it all. Top of the line hardware at the price you simply can't find anywhere else. Branded, high performance HP ProLiant DL360 Gen10 servers are ready for you! That's our definition of the true value.

Each node is monitored 24/7/365 by our on-board staff. We do our very best to tackle and resolve potential issues before they even become a problem for you.

We are currently provisioning our Linux VPS, Windows VPS, Container VPS and Storage VPS hosting packages on two different type of hardware with following specifications.

VPS NODES

- Intel(R) Xeon(R) CPU 2 x Gold 6132 @ 2.60 GHz (56 cores)
- 768 GB DDR4-2666 ECC REG RAM modules
- High performance 10 x 960 GB SSD RAID storage
- 4 Gbps dedicated uplink

CONTAINER VPS NODES

- Intel(R) Xeon(R) CPU 2 x E5-2640 v4 @ 2.40 GHz (40 cores)
- 256 GB DDR4-2133 ECC REG RAM modules
- High performance 8 x 960 GB SSD RAID storage
- 4 Gbps dedicated uplink

STORAGE VPS NODES

- Intel(R) Xeon(R) CPU E5-2603 v4 @ 1.70 GHz
- 64 GB DDR4-1866 ECC REG RAM modules
- High reliability 12 x 4 TB RAID storage
- 2 Gbps dedicated uplink

NETWORK

We understand that having your network up and running is critical for your business. Time4VPS deploys fast and reliable optical connections to all European network exchange spots to deliver amazing speed and stable connectivity for your workloads. Enjoy the unique opportunity to reach almost all of Europe in less than 50 ms! Be sure that your mission-critical applications will keep on running, even in the event of an unexpected traffic demand.

Time4VPS is able to deliver fully available, extremely fast, and robust connections to the internet, while providing very attractive pricing model to its clients.

DATA CENTER

TIER III DATA CENTER INFRASTRUCTURE:

- Location: Lithuania, Vilnius
- Built according to **TIER III** standard
- 2 independent 2 MW power inlets
- 3 x 664 kW diesel generators
- 4 x 275 kW uninterruptible power supplies
- 6 x 146 kW "freecooling" cooling system
- 2 independent optical communication inputs
- 140 server racks
- Redundant power and internet connection for each rack

TIER III DATA CENTER CERTIFICATE

DATA CENTER UPTIME

FACILITY

- Building-in-a-building concept
- 600 m2 of raised floor space
- 139 server racks capacity
- 6 x 146 kW cooling capacity

FIRE PROTECTION

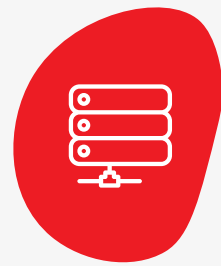

- VESDA fire detection system
- Gas based fire suppression
- 60 minute fire-resistant walls
- Portable CO2 extinguishers

NETWORK

- 100 Gbps premium bandwidth capacity
- 5 global transit providers
- DDoS mitigation hardware
- 2N redundancy

RACKS

- EATON REC series 42U 75 cm (W) x 100 cm (D)
- Secure key-locked rack doors
- Dual 10 kW power supply for every rack
- Dual 10 Gbps uplinks for every rack

POWER SUPPLY

- 2 x 1 MW high-voltage transmission lines;
- 4 x 275 kW Power Xpert 9395P UPS;
- 3 x 664 kW Visa DS diesel generators;
- N+1 redundancy

SECURITY

- Biometric access control (retinal scan)
- 24/7 onsite security staff
- 24/7 video surveillance
- Visitors escorted at all times

FAQ

Q: WHAT IS YOUR REFUND POLICY?

A: We offer 30-day money back guarantee.

Q: WHERE IS THE VPS PHYSICALLY LOCATED?

A: Servers are located in Vilnius, Lithuania (EU - Europe).

Q: HOW LONG DOES IT TAKE TO SETUP MY VPS?

A: Usually, our standard delivery time for VPS is 5 minutes for most customers.

Q: WHICH OPERATING SYSTEM CAN I SELECT?

A: We support various Linux OS distributions at our Standard servers (OpenVZ) and there is a possibility to choose Windows Server 2008 or 2012 with our KVM servers.

Q: WHAT KIND OF PAYMENT METHODS DO YOU ACCEPT?

A: Please free to use: PayPal, Visa, Mastercard, Maestro credit cards, Webmoney, CashU, Alipay, Wire transfer and Bitcoins.

TESTIMONIALS

Super cool experience with Time4vps. Best service I have ever used. Super chat support. Every time I ask something, they respond to it immediately. Thank You Very Much.

Kavidu J. / 2020

Time4VPS provides a quality service for an unbelievable price! I purchases a VPS from them a year ago and I recently moved my other VPSs to Time4VPS because they offer better products for a better price. Sometimes cheaper isn't always better. However, Time4VPS has yet to disappoint. They are responsive to questions and the service is stable and the VPSs are fast.

Anthony / 2019

I've been using Time4VPS for almost 2 years now and my experience so far is amazing. Services are highly stable and deliver exactly what's been promised. Prices are much better than any other offers you could possibly find. Thanks for creating such a beautiful company!

Nickolas / 2019

Great experience. The beauty is: I got my account up and running in few minutes with affordable price.

Bahjat / 2019

ABOUT US

Time4VPS is a division of the company 'Interneto vizija' which was founded in 2003 and quickly grew to serve more than 100,000 clients across Europe. Due to our loyal customers and their referrals, by 2005 we had become the largest web hosting provider in Lithuania (Europe). Today we are proud to have more than 15 years' experience in hosting business. We own a huge thanks to our community for trusting us.

By combining affordable, scalable options with enterprise-level technology, we are able to supply our customers with internet address registration, web hosting and VPS services.

Take a look at the milestone [here](#).
